

WHERE HOPE GROWS

For more than 75 years, United Way of Anderson County has been cultivating change so that our community can flourish. We're improving education, strengthening financial stability for individuals and families, and making our county healthier – without losing sight of the basic needs of our most vulnerable.

But we don't do it alone. We bring people and organizations together to do more than any of us can do on our own. Together, we tackle some of Anderson County's toughest issues. We're after solutions that create real change. It's not simple, or easy. But we're making progress and seeing results.

Every donation is a seed planted. Every act of volunteerism enriches the soil. Every voice shines a light for those in need. With your help United Way is a place where hope grows.

- 1** We know our community
- 2** We tackle root causes of the most pressing issues
- 3** We bring people and organizations together to solve problems
- 4** We drive impact
